

## BERESFORD DECLARES OUR POSITION SERIOUS

Seriousness Regarding Story That Germany  
Is Building New Additional War  
Ships—Word of Maritime British  
Fleet Should Be Advanced to Fleet.

London, Aug. 3.—The article printed in the London Daily Express yesterday asserting that Germany already is building new battleships is regarded seriously by Admiral Lord Charles Beresford as is evidenced by a letter to the editor of that paper, printed this morning. He says:

"My position is much more serious than the first Lord of the Admiralty (Winston Churchill) dare confess. He cannot find crews for eight additional battleships; there are not enough men now for active service in the fleet alone. The first Lord's statements on the subject are inconsistent with one another."

"On June 11th last, he informed me in answer to a question that there was a deficiency in the navy's personnel on March 31st of 24,000 men. On July 23rd following, he told the House of Commons that we started 2,000 shorts. He is now trying to recruit 5,000 more this year. It is exceedingly doubtful if he can get them, but if he does and if he was speaking the truth on July 23rd, and another thing on June 11th, the

actual increase will be only 2,000 and they cannot be sent to the fleet until they are trained. It is useless to build ships without sufficient men, but that is exactly what has been done for the past seven years. The results are colossal expenditures, a large collection of empty ships and the immediate menace of great and increasing debt."

"Danger to one thing which can be done away with by means of suspending the present recruitment, and by using the men available, is to man the fleet and do it now."

## Ryley Fine : Mixed Farming Centre With Excellent Railway Facilities

Ryley is situated in section 4, township 18, range 11, west of the 4th meridian. It is on the transcontinental line of the Grand Trunk Pacific railway, and the Vancouver-Calgary branch of the Canadian Northern railway passes directly to the west of the town. Thus Ryley is in direct communication with all principal points, either by rail, road, water or air, and shipping facilities unexcelled by any other town in the province. At the time of writing Ryley has twenty-five flourishing business houses.

The Ryley and Southman have some common points, common open land and excellent light. They are the two best, with its many advantages. The American farmer generally obtains very successful results in mixed farming.

### Much Live Stock

Over all the area surrounding Ryley are scattered herds of cattle. The most famous range the writer has ever seen, grows in this favored section. Almost the first question asked by an intending settler is that regarding the condition of the land.

MAP SHOWING RAILWAY FACILITIES FROM RYLEY AND DISTRICT.

Soil Conditions in Ryley District. The soil conditions around Ryley are of varying nature as to offer almost anything desired by the various classes of settlers.

The Ryley section is predominantly here, choosing for themselves and posterity the even, rich, deep alluvial deposits of stream courses. These people cultivate large areas as well as keep large herds. Many of the farmers put in crop hundreds of acres. The Swedish and Danish settlers are much the same, in the choosing of land, as the Norwegians.

The German goes back farther, seeking the best land with his neighbor. He is also a clear title of the soil and has a herd of stock.

the nature of the soil and water supply, each being essential to plant and animal life. There is no better soil anywhere than in this district. The soil for the most part is rich, black loam of varying depth and texture. Generally speaking there is from one to three feet of vegetable soil over a layer of sand and gravel. The land is chiefly rolling with here and there a clump of poplars or a poplar bluff to break the monotony of the prairie expanse.

The natural vegetation found grows in these lands shows conclusively the fertility of the soil. The possibilities of the district, all varieties of grain, hay, and stock raising. Both fall and spring crops can be raised.

the breaking of this fine prairie land is slow, numerous tasks, breaking the heart and spine alike.

Modern Steam Outfits. The early settler who turned the first sod on his homestead with a team of oxen is a thing of the past and in his place has come the modern steam plow or even more up-to-date machine plow. The old and building have been replaced by modern structures. The first ferry has been added to utilize new large fields of 60 and 120 acres are no uncommon thing. Indeed

are farm this year. They are practically new settlers but very prosperous. The only one who has failed is the one who has failed to improve.

That the district is admirably suited for dairy farming need not be disputed. Great quantities of cream are shipped daily to the city. The Ryley Farmers' Co-operative Creamery association, which has been in existence for the district, ship on an average a ton of butter per week.

First railroad is also a money maker here. A great deal of road building is going down in the town, the principal street is a busy line of men and teams carrying on the good work.

Last year the council spent \$2,000 on the erection of a fire hall and sidewalk improvements. This year they are spending \$1,000 on roads, etc., and the C. P. will spend \$1,000 on town improvements. There are a number of well built stores and good residences. The Alberta hotel, Ryley, is a regular little "home from home," under the excellent management of W. H. Prasad.

The conditions of the crops to date are promising for an early harvest. Occasional rain and considerable sunshine should lead to the maturing of the crops in a few weeks and unless very unfavorable conditions arise the prospects are that the grain will be gathered in good time this fall.

**ASTOR FORTUNES WERE FOUND IN MONTREAL**  
Jacob Astor the First Begun Bay Trading as Rival of Hudson's Bay Company. The Astor of Montserrat and Common Sins in Basement of Old Building.

Montreal, July 21.—Here is another landmark which will, doubtless, soon be added to the list of the great cities of the world. The Astor of Montserrat, the first of the Astor family to come to the west, is now being built in the heart of the city. The building is a masterpiece of architecture, and will be a landmark for many years to come.

The building is situated at the corner of St. James and Vendôme streets, in the heart of the network of dark narrow streets, little more than lanes in width, but valuable from the commercial point of view. The old building, which has been converted into a modern office building, is a masterpiece of architecture, and will be a landmark for many years to come.

**Early Fur Trading Days.**  
The town started early spring from the north and proceeded to the North West—an alternating back returning every fall. The ships were brought to the old building, which still stands as it has stood for the last three centuries and more.

It was in this building that Mr. Astor laid the foundation of the great fortune. He lived here for many years, going and coming. He was the leading spirit in the fur company which had men, with ill-concealed envy, the fur trade monopoly—gentlemen adventurers in the North-West. It was here that he laid the foundation of the great fortune.

## Decoteau Will Return to Edmonton Sunday Evening

Edmonton Distance Runner, Who Acquired Himself So Credible at Stockholm, Will Arrive in Edmonton Tomorrow Afternoon. Will Stay In Game.

Alex. Decoteau, the Edmonton runner, who acquired himself so creditably at the Olympic Sports, will arrive back in Edmonton Sunday. He along with most of the other Canadian athletes, landed at Montreal a few days ago and Alex. is coming direct through to Edmonton. Alex. finished second in his heat of the 8000 meters. He was not far behind the winner and was running against a stiff field.

Alex. will keep in training when he returns and compete in the different athletic meets held in Alberta the remainder of this season. Alex. did not prove himself to be the best runner in the world, but he did prove conclusively that he is the best man in Canada. The Police Athletic Association will in all probability have some special celebration to welcome his return.

## BARENKAMP TWIRLS VERY SNAPPY GAME

Base Running Was One of the Features of the Game.

Calgary, Aug. 2.—The visitors were badly treated to a shut out at the hands of Bill Barenkamp, who was in great form all the way and never gave his opponents a chance. The score was 3 to 0 and it just about represents the play. Official scored the first run after hitting an error, which was the only one of the game and finished on Plangman's double. Bill Barenkamp made a spectacular running catch of a fly liner, which looked good for the circuit. The base running of the locals was one of the features of the game. The box score is as follows:

## Rumor of War Between Great Britain - Germany

Report Is Received in Winnipeg Over Grain Wire Just Before Close of Grain Market—Responsible News Agencies Declare There Is No Foundation for the Rumor—Flurry of Excitement Caused in City.

Winnipeg, Aug. 2.—The local wheat market closed in something of a flutter due to a rumor that came in on one of the local grain wires to the effect that war had been declared between England and Germany. Responsible news associations say there are no grounds for the rumor.

### G.T.P. Press Dispatch

Shortly after two yesterday afternoon the following undated dispatch was posted in the windows of the Grand Trunk Pacific offices on Jasper avenue:

"Winnipeg, Aug. 2, 1912. "From London, Aug. 2, 1912. "War has been declared between England and Germany."

That was all there was to it, and excitement elicited no confirmation.

### Edmontonians Incredulous

The notice was met by gossamer passing along Jasper avenue, but no great excitement seemed to be aroused. The majority of those who read the startling message turned away and went about their business with a puzzled expression on their faces, as though they were struggling to grasp

the purport of the news but found it too startling and modern to be true. A small group collected around the window. Discussed the message. Some went into the office to inquire what authority there was for the information, but could not get any satisfactory answer. The clerks in the Grand Trunk office could only say that the message as posted had come over the wire from Winnipeg, but they had nothing to confirm or deny it.

### No Cause for Quaver

All the offices of the city into which the intelligence found its way were thrown into a surprised excitement. The majority of persons refused to believe in the possibility of such a thing, stating that there had been no specific ground for a quarrel, but as the public was aware.

## C.P.R. SIDETRACKS HUNDREDS OF CARS BILLED EDMONTON

Terminal Facilities on North and South Sides Wholly Inadequate.

## EMBARGO PLACED ON EDMONTON FREIGHT

Lumber Men Enter Emphatic Pro-  
test Against Existing Condi-  
tions on Line.

Declaring that the delivery of cars shipped over the C. P. R. is delayed to such an extent that there is a complete tie-up of freight carrying to Edmonton over that company's line, lumber dealers of the city met at the board of trade room yesterday for the purpose of taking some action against the C. P. R. in order to get some relief from the present intolerable situation. The difficulty of getting delivery of cars of lumber shipped to Edmonton from British Columbia points was pointed out. Other classes of building materials from other points is delayed beyond all reckoning.

Cars shipped in June, it is reported at the meeting that many cars of lumber shipped in June are still not within reach of the consignees. A car of line shipped from Kamuska, which should have come through in two or three days, was 27 days in transit. Cement shipped from Winnipeg on 15th June was only placed where the consignees could reach it on July 20th. Numerous other instances of intolerable delays were adduced.

It appears that the trouble does not come from any lack of cars or motive power, but rather from the fact that the Canadian Pacific railway are backing terminal facilities at Edmonton and their yard accommodation is totally inadequate to handle their traffic. Not only is there a condition of

complete congestion in both Tenth street yards and at Strathcona, but the yards at Westmount and other points north of Calgary are crisscrossed with hundreds of cars, many of which cannot be moved forward until the yard congestion is relieved. This lumber men present at the meeting stated that he yesterday found in the Westmount yards a number of cars which he estimated at over two hundred, which are destined for Edmonton, and practically all of which are over due, and the consignees are waiting their cars to be loaded.

The C. P. R. has recognized the seriousness of the situation in the light of placing an embargo on Edmonton traffic, and instructions were given to the local officials of the C. P. R. to appear immediately to the much-needed relief, the matter is to be laid by wire before Mr. J. G. Murray, vice-president and general manager of western line at Winnipeg, and exhaustive data will be gathered for presentation to the board of railway commissioners with a view to invoking the assistance of that body in securing the desired relief, and preventing a recurrence of present conditions.

## CHICAGO STREET CAR MEN VOTE ON STRIKE

Chicago, Aug. 2.—Employees of the street railway lines in Chicago being voting at 4 p.m. today on whether a strike is to be declared. The polls are to be closed at 4 a.m. tomorrow and a few hours later the result will be known. The threatened strike involves 12,000 men. The men are demanding more wages. They contend their cost of living is less than \$400 a year, whereas the cost of living for an average family is \$1,200 a year.

## THE KAISER ORDERS GAMBLING STOPPED

German Capital Undergoing Similar  
Change to That of New  
York—Many Tourists Have Lost  
Huge Sums of Money in Gambling  
Saloons.

Berlin, Aug. 2.—Berlin is undergoing a spasm of reform similar to that now affecting New York. The conditions in Berlin are practically identical with those existing in New York except that no charges have been made as to police constabulary with law-breakers. Nevertheless, good reasons exist for believing the German police charge, dealing with many gambling houses. The scandal has become so notorious that the Kaiser has transmitted from Norway, where he is spending the summer on his yacht, Hohenstein, to the German home office, a long report asking the minister of the interior to take more active proceedings against the gambling saloons.

**Gambling Prohibited.**  
Although gambling is strictly prohibited in Germany it has been discovered that the number of gambling saloons and similar dens has in recent years increased a hundredfold to the German capital. These houses are apparently night clubs where the strange people drift over every night, but after midnight the outer part of the place is closed and the lights lowered, laymen of course knowing nothing about these mysterious doings, are aware that they can only get in either by procuring some mystic membership or by presenting a member's card.

**Police Are Unable to Move.**  
The law on gambling only prohibits public gambling, but gamblers easily interpret the law their own way and simply indulge in private gambling on the premises. The police admit they know all about this, but declare they can do nothing as the law does not allow them to enter private houses in order to break up the gambling. The little men, aged 2, was out to the barn with him and was in the den when a sudden knock was heard. The barn door opened and a child, reaching in its teeth

dancing and as a result the present police activity has been beyond all expectations. In the first night more than two hundred gambling saloons were closed and twenty-five arrests of saloon keepers, gamblers and girls took place. The second night's raid was similar and in the last two weeks the cleaning of Berlin has been carried on with success.

Reports made by the police show that a greater number of those gambling saloons were infected by card sharp and that innocent foreigners and rich German officers were daily swindled.

Many fortunes have been lost and several complaints have reached the minister of interior and even the Kaiser himself. One complaint was lodged with the American embassy by John N. Patterson in two hours in a Ruler's room. The Kaiser was indignant when he heard about this, and especially since Princess of the Prussian royal house had also lost considerable money in the same resort.

In the Kaiser's communication to the home secretary he declares he wishes to end or mend this state of affairs, which he deems to be a disgrace to the modern capital, which if it remains unchecked, might endanger the reputation of Germany as brought and decent people throughout the whole world.

## Valuable Painting Found in Garret.

London, Aug. 2.—While clearing out the garret of the residence of the new mayor of Saint Andrew, in Central France, there was discovered yesterday a portrait painted on wood. It is of Charles Hamilton, Duke of Devonshire, governor of Malta in the days of Louis XIV. Experts state that the picture is by either "Leonardo" or "Van der Weyden" called "Anders" and is a very fine work of art.

## Child Killed by Barn Door.

St. Mary's, Ont., Aug. 2.—A fatal accident occurred at the farm of Henry David Hamilton, 114 little boy, aged 2, was out to the barn with him and was in the den when a sudden knock was heard. The barn door opened and a child, reaching in its teeth

## OPENING OF EAST END BRIDGE IS DELAYED

Non-Arrival of Timber for Last of  
Flooring Prevents Completion of  
Suspended Time—Will Probably  
be Finished Next Week.

The new east end bridge which was to have been completed by the 1st of August is not yet completed, but in very nearly so. A delay has been caused owing to the fact that the last of the timber for the flooring of the bridge has not arrived. The timber is now on the spot, however, and a big raft will be made to have the bridge ready by next week.

Work is at work grading the roadway on both sides of the river. Good progress has been made with the grading on the south side. There is a big cut to fill on the north bank and the grading will take a week or two longer. If the bridge is completed next week it cannot be opened for traffic owing to the fact that the approach to the bridge on the north side the river will not be ready.

The new bridge is a very solid structure, but by no means clumsy looking. The arches and the bridge approach a appearance of trim strength to the existing one. The bridge is expected to meet in the end to east end property on both sides of the river. On the south side the bridge will open up a comparatively small amount of country, but will give the new direct connection with the heart of the city, really close in property and by its high location promise to attract a good many new residents.

## WORLD WILL BE MADE 300 YEARS HENCE SAYS DR. WINSLOW

London Physician Takes Exception to  
Statement by Dr. Mott at  
Edinburgh.

London, Aug. 2.—The vision of a world 300 years hence, as it was prophesied by Dr. Purkin of Edinburgh, while arguing his dissent from the statement of Dr. Mott that the human race will be extinct in 300 years, than Dr. Winslow said: "The world will be made 300 years hence. This is based on the present rate of the growth of the human race. Every part of the world civilization is advancing and advancing is bound to advance. There were 25,000,000 in 1850; there are now 25,000,000."

FOR SALE.—REAL ESTATE

**McLEACHERY**  
**BROS.**  
Real Estate, Mines & Timber  
Phone 2023 324 Jasper Ave.

Although Real Estate at the present time is acknowledged to be moving somewhat slower than earlier in the year, astute investors see nothing to worry about in this, but consider it the best time to pick up desirable property, believing that they will realize good advance on present prices during a fall activity.

We are selling today a set which is different from all the rest, while we getting the last attention at the present time.

## HUDSON'S BAY RESERVE

Anyone looking for an investment south of Jasper and east of Nipaw would do well to look at lot 14 in Hudson's Bay Reserve. Price \$10,000.00. For a fine View Lot, overlooking the river and the High Level Bridge and getting a splendid view of the University grounds, Lot 82, Block 11, cannot be sold at \$10,000.00.

Thabasca and Jasper, are two as fine  
building Lots as can be found in the  
West End. Price \$5500 each; terms**

**NOBWOOD**

There has been such a demand for this property during the past few months that it is very hard at the present time to secure a good list of this property, as by far the largest part of this has been bought for building purposes and withdrawn from the market. However, we give below a few, which are among the best to be had.

Lot 15, Block 72, a corner. Price \$500; terms, \$750 cash and take

Lot 24, Block 22, on Kirkness: price \$900; terms, half cash, balance 6 and 12.

One Lot in Block 66: price \$1100; terms, half cash, bal. 6 and 12.

**DELTON**  
There has been a good demand for lots in this Subdivision, especially near to Albertn Ave. We have been having difficulty in keeping an up-to-date list in this locality; the following are sure of delivery for a few days only:  
Lots 5 and 6, Block 11, each 36x112; price \$1950 each; terms, half cash, balance 12 months.  
One Lot in Block Nine, with garden and fenced; price \$1650; terms \$700 cash, balance 5 and 11 months.  
Lots 12 and 14, Block 12; price \$1800 each; terms, half cash, balance 12 months.

McDOUGALL AVE.

**SYNDICATE AVE.**  
With the improvements going on at the present time, Syndicate is bound to be one of the best streets in the East end, and anyone holding property there of a steady increase in value.  
We have a lot in Block 6, with good evidence, rented at \$25 per month, and consider it just a little better than anything else offering. Price and terms may be had at the office.

**NORTH JASPER PLACE**

There is no Subdivision in the West where Lots can be bought at the price they can here. Lots are all 50' x 120' and are in the suburbs about 1/2 mile from the city. Each one making a splendid home. It will be only a short time when street car extension must be made further west, bringing this pro-

is direct touch with the business  
tre of the city. It would be w  
anyone wishing to secure a lot  
West End to do so at once, before  
ces have advanced any further, a  
y are sure to do. We would be  
ased to show what we have left fo  
e at any time.
